

## TENDER NOTICE

**Tender Name:** Supply, Installation, and Commissioning of Weather Observation Equipment

**Tender No:** MI-2023-001

The Country Meteorological Department invites sealed tenders from eligible suppliers for the Supply, Installation, and Commissioning of Weather Observation Equipment. The equipment should be in compliance with international meteorological standards and should include the following items:

- Automated Weather Stations
- Radiosondes
- Rain Gauges
- Barometers
- Temperature and Humidity Sensors
- Wind Sensors
- Data Loggers
- Software for data collection and analysis

The equipment should be supplied, installed, and commissioned at two locations within the institute's premises: the main observatory and a remote site. The supplier will be responsible for the installation and commissioning of the equipment, as well as providing training to the institute's staff on its operation and maintenance.

Interested bidders should possess a valid trading license and have experience in supplying similar equipment to meteorological institutes. Bidders must also provide evidence of their financial and technical capabilities to undertake the project. A mandatory site visit is scheduled for interested bidders on [insert date and time].

The tender documents can be obtained from the institute's procurement office during office hours or can be downloaded from the institute's website [insert website link]. The deadline for submission of tenders is [insert date and time].

Late tenders will not be accepted, and the institute reserves the right to reject any or all tenders without giving any reason.

For further information, please contact the Procurement Manager on [insert contact details].
